

Domestic and Family Violence Database

Global Summary – March 2004

The following statistical information has been collated from data provided by domestic and family violence prevention and support services funded by the Queensland Government's Department of Families, for the month of March 2004. The data is collected by the service providers in respect of each new client, or new client matter presenting for assistance in relation to domestic or family violence. It therefore only relates to people who access support services and should not be seen to represent the incidence of domestic and family violence in Queensland. Also, it cannot be seen to represent the total workload of these services, because the data is collected only for *new clients* or *new client matters*.

This is the sixth data output since the data collection began and is a preliminary summary. Charts have been provided where practical and useful. The presentation of the statistical information will be refined on the basis of feedback from contributors to the database and other stakeholders.
